

## Stars of the DIY Toolbox

We came. We saw. We tested. And then we voted. Here are four faves from the recent National Hardware Show. Get hands-on with more winners at [popularmechanics.com/video](http://popularmechanics.com/video). — Roy Berendsohn

### + QUICK GLUE +

We've always liked Gorilla Glue. The stuff is tough and easy to use, and it works on a variety of materials. We think this new stuff has gone the original one better. Gorilla Glue's new Quick Cure formula shortens the cure time from overnight to about an hour, and it dries white, for a nearly invisible glue joint. Like the original product, it's waterproof and it bonds a variety of common materials, such as wood, ceramics and stone.

**PRICE:** \$5 for 2 ounces
